DETAILED ACTION
EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Farshad Farjami on December 18, 2008. The application has been amended as follows:

Delete "and/or software components" from page 6, line 4 of the specification.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance:

Regarding claims 1 and 17, they recite a method and apparatus of processing speech. Prior art such as Bergstrom, Andersen, Zinser and Kaajas teach a similar method and apparatus, but fails to teach decomposing said input wideband speech signal into a voiced portion and a noisy portion using an adaptive separation component having a filter cut-off frequency, wherein said voiced portion is a portion of said input wideband speech signal for waveform matching and said noisy portion is a portion of said input wideband speech signal not for waveform matching, and wherein said filter cut-off frequency is above 4 kHz, for improving quality of synthesized speech.

Dependent claims 2-11, 13-15, 18-27, 29, 31, 48-49 and 51-52 are allowed because they further limit their parent claim.

Regarding claims 33 and 40, they recite a method and apparatus of processing speech. Prior art such as Bergstrom, Andersen, Zinser and Kaajas teach a similar method and apparatus, but fails to teach obtaining a voicing index, wherein said voicing index provides a filter cut-off frequency for signal composition, wherein said voiced portion is a portion of said input wideband speech signal for waveform matching and said noisy portion is a portion of said input wideband speech signal not for waveform matching, and wherein said filter cut-off frequency is above 4 kHz, for improving quality of synthesized speech.

Dependent claims 34-36, 39, 53-54, 40-43, 46 and 55-56 are allowed because they further limit their parent claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
